Email from the Owner of a Toronto-based Carpet Cleaning Company

Just wanted to show you and let you know how impressed I am with Smarter Solutions Peroxide cleaner.

It takes a lot to make me impressed. We generally use, what I believe, are the best organic cleaning products in the market. Sourced from all over North America.

By far, the hardest carpets to clean are those made of polypropylene, olefin, and/or viscose. I was at a client's house on a different cleaning matter, and she showed me her stairs and how dirty they were. I said that the real issue was the carpet fibers which were olefin. They just don't clean up well. She asked if I had any way to clean them and I said, "let me try a new cleaner I have". I wasn't expecting much in the way of results. I sprayed the Smarter Solutions peroxide on a towel and gently rubbed it across the stair. The results are self evident. I was blown away by the difference as was the client. I think Smarter Solutions has an awesome peroxide spray for this type of application.

Thank you for introducing their product to our company.
