A happy parent from Ontario

I found an exciting use for this product – eliminating strong perspiration odours from fabric. I have a daughter who perspires quite a bit. Her perspiration leaves a very strong offensive odour in her clothing. Over the years, I have used many laundry detergents, and nothing removes the odour. I have even tried masking the smell by using highly perfumed fabric softeners, but the odours still eventually came back. Sadly, my only alternative was to throw away her clothing once the odours got too noticeable. Obviously, it has cost me a lot of money over the years replacing her clothing, but I no had no other choice.

Although this product's focus is to remove stains, I thought "What have I got to lose?" I sprayed the armpits with a little Smarter Solutions Stain Remover. I waited 5 minutes after spraying and added a little laundry detergent as normal. To my surprise, it eliminated all the odour in my daughter's shirts!

I have used it on different areas of the shirts and different types of materials, and it hasn't damaged any materials and there hasn't been any fading of colors. I am so impressed. Now I don't have to throw away my daughter's clothes anymore. I am going to save so much money on clothing. My daughter also is no longer self-conscious wearing clothes with noticeable odours. What a wonderful product!!

Thank you, Smarter Solutions!
