

- Size: 326*81*150.5 mm
- Voltage: 20V (DC)
- Motor Power: 129W
- Current: 6 amps
- Effective range: 3M
- Atomised volume: 70ml/min
- Charger input: AC 100-240V 50hz/60hz
- Charging time: 3.5-4 hours
- Operating time: 25-30 minutes
- Bottle size: 1.8 liters
- Noise level: -75 Db
- NET weight: 1.3 Kg

Instructions:

We encourage customers to use the solution in the electrostatic sprayers "on demand." So, pour what you need and spray as needed. Do not store the solution in the sprayer.

Points of Difference:

Most Sprayers use Quats (Quaternary Ammonium Compound) as their cleaning agent. In contrast, CleanSmart uses HOCl as its main cleaning agent. Here are some points about HOCl.

HOCl:

- No Harsh Fumes
- No Harmful Chemicals
- Non-Corrosive
- Leaves no residue behind on surfaces
- No respiratory irritants
- No Allergens or asthma triggers
- Food surface and contact safe
