

# Biological Bacterial Treatment

SmarterSolutions<sup>+</sup>

## Environmentally Safe Biological Treatment

- Non-Alkaline
- Multi Strain
- Fast Acting
- Odour Control
- Reduces FOG & BOD
- Highly Effective against Vegetable Oils

## Description

Biological Bacterial Treatment is a liquid biological bacterial treatment that works immediately to maintain grease traps and drains and control odours in dry septic systems such as pit toilets. It also controls fats, oils, and greases (FOG) and biochemical oxygen demand (BOD) in sewage treatment plants. Biological Bacterial Treatment degrades FOG and liquefies and digests organic waste, leaving a pleasant odor. The biodegradable demulsifying surfactants separate water from FOG allowing grease traps, separators, and bacteria to work more effectively.

*Sizes: 500 ml; 1 litre; 4 litre; 20 litre; 210 litre*

## Product Features

With its blend of 7 highly effective strains, Biological Bacterial Treatment's biological action reduces odours caused by grease traps within hours of application. Its proven technology rapidly degrades vegetables, soy, canola, and olive oil. Using this product enhances anaerobic and aerobic activity; it provides superior germination outgrowth; and it is a highly effective deodorizer. Its grease biodegradation action significantly outperforms competitive products.

## Applications

Grease traps  
Wet wells  
Sewage plants

Food plants  
Toilet bowls, urinals, and drains  
Portable toilets / Outdoor toilets

## Physical Properties

Appearance:

Turbid, straw color

Odour:

Fresh, pleasant neutralizing odour

pH:

6.5-7.5

Enzyme Production:

Lipase/Protease/Amylase/Cellulase/Urease 757

Bacterial Count:

billion cfu/gallon 2.00e+08 cfu/ml

Solubility:

Complete with water

✓ Environmentally Safe

✓ Biodegradable

✓ Non-Flammable

✓ Phosphate Free

✓ Non-Acid

✓ No CFC's

✓ No VOC's

✓ Non-Corrosive
